THE RISE OF THE DIGITAL WORLD

- The Internet isn't a fad – it's a fundamental shift in the way we communicate
- Over 294 billion emails per day
 - 90% are spam... but 20 million *real* emails per minute!
- **facebook** has over 1.3 billion users
- **You Tube** serves over 4 billion videos per day (more video in a month than the 3 major networks produced since 1950!)
- eReaders have surpassed traditional book sales

THE VALUE OF FINANCIAL PLANNING

- What is the value of advice-givers in an increasingly technology-driven world?
- Planners are experts when finding solutions on the internet is like finding a needle in a haystack...
 - ...But will improvements in search, sharing, and social media change this?
 - What if the answers to your questions came up instantly in an internet search?
- What is the role of a planner if useful, relevant information actually becomes easily accessible?

BLUE OCEAN STRATEGY FOR PLANNING

WHAT IS THE BLUE OCEAN STRATEGY (BOS) FOR THE DELIVERY OF FINANCIAL PLANNING?

- Focus on what matters, eliminate everything else, and create something new
 - The simultaneous pursuit of differentiation and low cost
- What creates the most work? What has the most cost? What can we leave behind?
- What value or experience is financial planning not delivering, that it could?

FINANCIAL PLANNING IN A FLAT WORLD

FINANCIAL PLANNING IN A FLAT WORLD

- The internet & the growth of bandwidth are leveling the playing field
- Geographical divisions are becoming increasingly irrelevant

How is a financial planning firm structured where hiring and staffing doesn't need to be connected via geography?

FINANCIAL PLANNING IN A FLAT WORLD

PLANNING FIRMS OF THE FUTURE AS TECHNOLOGY BREAKS DOWN GEOGRAPHY

- What (& who) needs to be physically located at the firm?
 - Virtual staff vs. employees
 - The trend towards outsourcing has begun
 - Central hub for planners around the city/state/country/world(?)
- Planners will choose business relationships based on:
 - Technology offering and platform
 - Flexibility to match their needs
 - Support service
 - NOT geography!

FINANCIAL PLANNING IN A FLAT WORLD

FINANCIAL PLANNING AS THE WORLD GOES FLAT PART 2 – THE CLIENT RELATIONSHIP

- Eventually, there will be a disconnect between geography and planner selection!
- What if clients work with the best firm that fits their needs... period? And not the best firm in their area?
 - What are you “the best” at? What’s your niche?

TRUST AND/VIA THE INTERNET

Handouts/Materials: kitces.com/FPACT18

TRUST AND/VIA THE INTERNET

- Can we trust at a distance?
 - Can a true trust-based relationship be created via the internet?
- What is it that makes us trustworthy?
 - It's all about credibility
 - Integrity (do you walk your talk?)
 - Intent (what's your motive/agenda?)
 - Capabilities (are you able to be relevant?)
 - Results (what's your track record for value/results?)

TRUST AND/VIA THE INTERNET

RELATIONSHIP TRUST – IT'S ALL ABOUT CONSISTENT BEHAVIOR

- Talk Straight
- Demonstrate Respect
- Create Transparency
- Right Wrongs
- Show Loyalty
- Deliver Results
- Get Better
- Confront Reality
- Clarify Expectations
- Practice Accountability
- Listen First
- Keep Commitments
- Extend Trust

TRUST AND/VIA THE INTERNET

- Walter Cronkite
- “The Most Trusted Man In America”
 - It wasn't because he met everyone in America in person!
- What is it that makes us trust?
 - Credibility and relationship-building lead to trust
 - Trust builds from ongoing demonstration of credibility and relationship-building - develop a reputation for being trustworthy!

TRUST AND/VIA THE INTERNET

- Can we trust at a distance? Yes!
 - Sometimes tragically so...
- *Nothing in the trust-building process inherently requires a face-to-face connection*
- *Remember when we didn't trust buying anything on the internet?*
 - Until companies built a trustworthy reputation with us!
 - Could we build the same relationship with our clients?
 - Will robo-advisors beat us to it?

TRUST AND/VIA THE INTERNET

- Are Robo-Advisors the end point?
 - Not necessarily...
 - Does a computer make us change our behavior?
- The advisor of the future is not human nor robot, but cyborg?
 - The technology-augmented "bionic" human advisor

TRUST AND/VIA THE INTERNET

- The ongoing disruptive force of technology
 - First “stock brokering” died with discount/online brokers
 - So we became fund pickers
 - Then active mutual fund picking died as reporting tools made it clearer how bad most are
 - So we became asset allocators
 - Now “robo-advisors” are commoditizing asset allocation
 - So we become... financial planners & wealth managers
 - *Technology doesn't “kill” advisors, but it does force our ongoing evolution up the value-add chain*

MARKETING & GROWING IN A DIGITAL WORLD

- How will firms communicate their attractiveness to prospective clients in the digital world?
 - Be discoverable
 - Have a niche (especially if you're not already "big")
 - Be "the best" at something
 - Be referrable
 - What results do you provide? What is the client experience?
 - Be able to effectively describe your value!

SOCIAL MEDIA REVOLUTION

- Social media and referrals
 - Social media will serve to accelerate – or hinder – the trust process
 - You won't find news (and business) – relevant news and business opportunities will find (be pushed to) you!
- Referrals from people we trust help to establish credibility in knowing who to work with
- The quality referral of the future:
 - Retweeted 
 - Liked 
 - +1'd on 
 - Recommendations from people you know and trust

A NEW KIND OF CLIENT EXPERIENCE

- “The Experience Economy” - People will pay more for an experience than just a product.

Vs...

- The parts may be the same on the inside, but the results are customized for every customer/client
